# OVERVIEW Potenza

## WHY DENTAL MATERIAL?

*Potenza is used using excellent quality raw materials, high technology manufactured machinery, as well as a manufactured production process and quality control.*

*Potenza have the complete solution to further improve dental care and complete solution for a perfect smile. With high-performance solutions with proven effectiveness, the brand has an extensive range of products, which include tooth whitening products for home and office use, gingival barriers, desensitizers, resin cement, topical moisturizers, and polishing pastes.*

*With Potenza, dental professionals find safety and predictability, through complete and technological solutions that make daily practice easier.*

*Discover the Potenza products, responsible for transforming your technique into true art!*

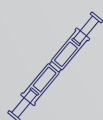

POTENZA BIANCO SS 38%  
(HYDROGEN PEROXIDE)

**RP 470.000**  
/ SRINGE

## Potenza BIANCO SS 38% (HYDROGEN PEROXIDE)

The best choice for a practical and high performance in-office bleaching. It's short application time and the single application per visit feature will enhance patients comfort and dynamize sessions.

**Syringe-Syringe mixing system:** does not require manipulation and facilitates application on teeth

**Pre-dosed portions** to fit the upper and lower arches comfortably

**High wettability:** maximum contact of gel to teeth

Average at **only 25 minutes** at application **per session**. No need to change the gel during sessions

POTENZA BIANCO PF 35%  
(CARBAMIDE PEROXIDE)

**RP 690.000**  
/ SRINGE

## Potenza BIANCO PF 35% (CARBAMIDE PEROXIDE)

Practical and conservative option for in-office bleaching. The gel comes ready for application and **offers very low level of hypersensitivity for most patients**. It's the best choice for sensitive patients or when using the combined technique.

**Easy to apply** thixotropic gel

Presents a **very low level** of hypersensitivity

**High water content** that helps preventing tooth dehydration

**Ready to use gel**, straight from the syringe! Sessions of 45 minutes

Potenza BLOCCO - BLUE  
(GINGIVAL BARRIER)

**RP 225.000**  
/ SRINGE

## Potenza BLOCCO - BLUE (GINGIVAL BARRIER)

Indicated for **gingival protection** during in-office bleaching. Also recommended to aid in total dam isolation and stabilize clamps and restoration matrices.

Balanced flow that favors the application

**Excellent** sealing power

Rigid and **insoluble barrier**

**High** adhesion to gingival tissue

**Potenza SPECCHI PRO  
(MICRONIZED DIAMOND)**

**RP 381.000**  
/ SRINGE

## Potenza SPECCHI PRO (MICRONIZED DIAMOND)

Indicated for polishing and shining of restorative materials. Different versions for specific applications.

**Potenza Specchi PRO:** paste based on micronized diamond. Available in 3 granulometries: 0.5 to 1.5 microns, 2 to 4 microns and 5 to 10 microns

**Lubricating properties that minimize** heat generation
