# OVERVIEW

## Why Orthodontic Instruments Nexton?

### Our Story

Here in Nexton, quality is of utmost importance, so we have developed our company's infrastructure on such channels which ensures that every metric of customer satisfaction is complied with. Our Two-Tier Quality Assurance System is an example of such channel in which every instrument is examined to first satisfy ISO-13485, ISO-9001, FDA and CE standards and then the set of standard Nexton has crafted with its generations of experience, hence called the

### "Two-Tier Quality Assurance System"

Nexton understands that customer satisfaction yields customer trust. Hence we pride our self in possessing traits like in-time delivery, warranty check, instrument care service and securing quality control certificates (ISO-13485, ISO-9001, FDA and CE) which speaks to our credibility.

Each instrument is manufactured using the finest stainless steel and the standard of steel is tested rigorously throughout the process of production. Workforce is a primal part in our business, hence we have designed a multilevel-filtering recruitment process which makes sure that every person we hire meets our exceptionally high standard of craftsmanship. Only by retaining such strict quality measures, Nexton is able to craft instruments which has the best design precision and the highest technical fidelity.

After Our philosophy is to be a customer-driven firm, that is if any client desires any modification in the design provided in our catalogue, we will be more than obliged to execute that request with promptness.

**"Every procedure you perform shapes how your patients feel about you. That's why we engineer solutions you can count on to deliver reliable results every day."**
